SOURCES / ACKNOWLEDGEMENTS

This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (MFWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library, in response to Montana Code Annotated 97-3-205, which requires the State to provide maps to the public. The MT Natural Heritage Program and MFWP are responsible for the ownership data displayed on this map. Additional information, corrections and updates (especially for tribal lands and private lands) were added by the University of Montana, tribal entities, and the State of Montana. The MT Natural Heritage Program has made numerous updates and corrections (especially for state trust lands and private lands) to the ownership data displayed on this map. This map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

The base scale of the public ownership data is 1:100,000, though many of the recent edits incorporate data digitized at 1:24,000 scale maps or survey data.

Private ownership data is accurate to scales of 1:24,000 or smaller.

Map produced September 2007 with ownership data current as of August 2007.

The private land data were developed for the Montana Quadrangle Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), and the Montana Natural Resource Information System (NRIS) of the MT State Library. The MT Natural Heritage Program, MT State Library, MT Dept. of Administration, and MT Dept. of Revenue make no warranty or warranty of fitness for a particular purpose with respect to the completeness of the data contained in these maps and assume no responsibility for the use of these maps. The MT Natural Heritage Program makes no warranty that the boundaries displayed on these maps are not based on land surveys or other data that may be subject to change through land exchanges, subdivisions, or other transfers of ownership or conservation easements. These edits are based on data supplied by the various agencies and land trusts, and have not been verified against the original data sources.
